Subject: Don't cut our Military

The USA has had the strongest military in the world. and now we are cutting it! Is China cutting theres? Is North Korea? You always want our Military there in the time of need, but want to cut our Soldiers, Units and weapons. this Country need to get back to what is important and build our Military not weaken it. Would you really want to go to a ww3 with a weak Military. The Government has put a lot of money into FT. Bragg even more recent. The building of Brack the building of SF. This is a know established post know by many. We need to build this Post up not tear it down. When I was a Soldier I longed to be here with the Brave 82nd. Stop tearing up America. Rebuild it. Thank You, Michele Shaffer
